

Digital Trends Quarterly- UK - September 2018

Report Price: £1995.00 | \$2693.85 | €2245.17

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

"Taking pictures or videos is no longer something people do to record events or as a hobby, but is something that's woven into their daily lives. Photos and videos are used for capturing a special moment, beefing up your social media profile, or as a quicker means of communication than a text message."

- Matt King, Category Director, Technology and Media Research
