

Mobile Network Providers - US - March 2020

Report Price: £3254.83 | \$4395.00 | €3662.99

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

"The US mobile telecommunications market is valued at nearly \$250 billion, and the industry is expected to undergo rapid changes in the next couple of years due to advancements in network speeds and innovation. The implementation of 5G networks and connections will play a big role in consumer decision making in the category."

-Buddy Lo, Senior Technology Analyst

This report looks at the following areas:

- Family plan participation is around 60%
- Wireless customers wary when it comes to how their data is delivered

Table of Contents

Overview

What you need to know

Definition

Executive Summary

Market overview

What you need to know about mobile network providers

The issues

Family plan participation is around 60%

Figure 1: Type of network plan, by gender and age, January 2020

Wireless customers wary when it comes to how their data is delivered

Figure 2: Attitudes toward mobile network plans – Data plans and speed, January 2020

The opportunities

5G connections could spur new consumer spending in the category

Figure 3: Attitudes toward mobile network plans – 5G, January 2020

Two in five wireless customers considering making a change to their wireless plans

Figure 4: Interest in changing mobile network plans, January 2020

Key trends

Bundling entertainment streaming will continue

Figure 5: Index of triggers to changing mobile network plans, by generation, January 2020

Telecoms branching out into new services

Figure 6: Attitudes toward mobile network plans – Bundled services, January 2020

What it means

The Market – What You Need to Know

Steady growth forecast through 2024

Tax reform bolsters equipment spending

5G awareness continues to grow

Connected devices represent untapped revenue potential

Market Size and Forecast

Consistent growth expected through 2024

Figure 7: Total US sales and fan chart forecast of mobile network spending, with best- and worst-case scenarios, at current prices, 2014-24

Figure 8: Total US retail sales and forecast of mobile network providers, at current prices, 2014-24

Market Breakdown

Equipment spending increases dramatically in 2018

Figure 9: Total US retail sales of mobile network providers, by segment, at current prices, 2014-19

Mobile device usage and network subscription nearly ubiquitous

Figure 10: Mobile device ownership and network subscribers, 2014-19

Figure 15: T-Mobile 5G mobile banner advertisement, January 2020

Bundling wireless and home internet will likely continue to grow

Market Perspective

Connected devices with dedicated data connections

Figure 16: Smartwatch behaviors, November 2019

Figure 17: T-Mobile upgrade email, January 2020

Key Players – What You Need to Know

Sprint and T-Mobile merger gets green light, is nearing finalization

5G gets major exposure from top network campaigns

T-Mobile continues momentum and growth

Sprint struggles to compete against the rest of the “Big 4”

Breakdown of Mobile Network Providers

Verizon and AT&T account for more than half of the wireless market

Figure 18: Mobile network providers – Simmons data, April 2018-June 2019

T-Mobile, Verizon and “Other” networks show growth

Figure 19: Mobile network providers – Simmons data, 2012-19

What’s Working

T-Mobile subscriber growth continues

Verizon strengthens its leading position in the market

What’s Struggling

Sprint can’t seem to meet customer expectations

What to Watch

T-Mobile and Sprint merger reaching final stages of approval

The Consumer – What You Need to Know

Majority of consumers have unlimited data plans

Family plans are the most common plans in the market

Verizon leads the industry with the highest market share

T-Mobile outperforms among young and multicultural

T-Mobile leads the “Big 4” in customer satisfaction
