

# Concrete and Concrete Products (Industrial Report) - UK - August 2014

Report Price: £995.00 | \$1611.35 | €1263.96

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“The concrete and concrete products sectors were strongly affected by the economic downturn, and difficult trading conditions prevailed until 2013 when conditions notably improved as the year progressed.”  
 – Terry Leggett, Senior Analyst

## This report looks at the following areas:

- Ready mixed concrete
- Cement
- Concrete bricks and blocks
- Concrete paving and flagstones
- Pre-cast structural concrete
- Concrete roofing tiles
- Concrete pipes

The construction industry is one of the largest sectors of the UK economy. The concrete and concrete products market tends to be highly cyclical as it is totally dependent on the UK construction industry, which is itself notoriously cyclical.

This area's prospects now are for a period of strong growth well ahead of GDP development, with the sector benefiting from renewed buoyancy in the construction sector and continued investment in major infrastructure projects in the civil engineering sector.
