

# Domestic Central Heating (Industrial Report) - UK - September 2014

Report Price: £995.00 | \$1611.35 | €1263.96

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

"The domestic central heating sector has received a welcome boost from the comparative success of ECO incentives, while the Green Deal, at least when it was based on loans, was disappointing in its effect on demand."

– Terry Leggett, Senior Analyst

This report looks at the following areas:

- How strongly will the market develop over the next five years?
- Is that growth sustainable over the entire five years and what will be the market drivers?
- Which regions hold the best prospects?
- Which product sectors now hold the best prospects?
- How have government schemes affected the market?

This report covers the UK market and industry for domestic central heating products and systems comprising boilers, radiators and central heating controls. Please note that due to a reclassification of data by the ONS, repair and maintenance is no longer included in the domestic central heating market.

The requirement on the UK to reduce carbon emissions has determined that the market has not, and will not, be restricted to economic development, but the growth of the UK economy will add a further impetus to demand over the next few years

## Table of Contents

### Executive Summary

#### The market

- Figure 1: Development of the UK market for domestic central heating products, 2009-13 actual and 2014-18 forecast
- Figure 2: Segmentation of the UK market for domestic central heating products, 2013
- Figure 3: Installed base of central heating boilers, by type of boiler, 1975-2010
- Figure 4: Segmentation of the UK market for central heating installations by fuel type, 2013
- Figure 5: Installed base of central heating systems, by type of fuel, 1970-2010

#### Market factors

- Figure 6: Household central heating penetration, 1970-2010
- Figure 7: Proportional importance of new installations and replacements for central heating, 2013
- Figure 8: Forecast development of the UK market for domestic central heating products, by type, 2014-18 forecast

#### Companies

- Figure 9: Changes in the structure of the central heating radiators and boilers industry, 2009-13

#### What we think

### Introduction

#### Definitions

#### Methodology

#### Abbreviations

#### Market positioning and issues in the market

#### Market factors

- Figure 10: Residential property transactions in the UK, 2009-13
- Figure 11: Summary of major energy efficiency programmes since 2000

#### EEC1

#### EEC2

#### CERT

- Figure 12: Number of installations of main measures in EEC1 and EEC2
- Figure 13: Number of installations under CERT 2008-12

#### Boiler scrappage

#### Warm Front

#### Fuel Switching

- Figure 14: Fuel switching grants, 2011 and 2012

#### CESP

- Figure 15: Number of measures installed under CESP, 2009-12

#### Green Deal

#### Core Offer 1

#### Core Offer 2

- Figure 16: Selected number of measures installed using Green Deal finance up to June 2014
