

# Passive Fire Protection Equipment (Industrial Report) - UK - December 2014

Report Price: £995.00 | \$1611.35 | €1263.96

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“Demand for passive fire materials has been challenged in recent years with low levels of construction activity. New build prospects are far stronger than the overall economy; this will result in strong demand for passive fire products and materials over the next few years. Individual product areas reflect the mixed levels of development anticipated in various construction sectors.”

– Terry Leggett, Senior Analyst

## This report looks at the following areas:

- How will the market develop over the next five years?
- Is growth sustainable over the entire five years and what will be the market drivers?
- Which product sectors now hold the best prospects?
- What implications are there for the market and industry from the varied prospects for construction activity?
