

Facilities Management - UK - October 2015

Report Price: £995.00 | \$1611.35 | €1263.96

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

"The facilities management industry has grown strongly both in times of recession and economic growth. The development of the market has continued in the public and private sectors, which are now demonstrating key differences in growth."

– Terry Leggett, Senior B2B Analyst

This report looks at the following areas:

- What effect will increases in the minimum wage have on the facilities management sector?
- How is public sector demand for facilities management being affected by reduced public sector expenditure and legislative changes?
- Will the industry continue its rapid development?
- Will growth in total facilities management contracts grow ahead of single or other multiple service bundles over the next five years?
- What sectors are likely to generate the greatest demand for facilities management services in the next few years?

For the purpose of this report, the potential facilities management market includes work that is contracted to third parties, including total facilities management (TFM) contracts, and the value of projects undertaken in-house.
