

Industrial Fasteners - UK - December 2015

Report Price: £995.00 | \$1611.35 | €1263.96

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“Automakers are taking measures to reduce the weight of vehicles with the drive to greater fuel efficiency. This has increased demand for more light-weight fasteners, with automotive manufacturers increasingly replacing steel fasteners with aluminium fasteners. This trend is set to continue to drive innovation in the fastener sector over the coming years.”

– Claudia Preedy - B2B analyst

This report looks at the following areas:

- How has the industrial fastener market performed over the last five years?
- What are the growth prospects for the industrial fastener market over the next five years?
- Which key end-use sectors are driving demand for industrial fasteners in the UK?
- How have the key players in the industry performed financially in recent years?
- What are the drivers for innovation in the industrial fastener sector?

The industrial fastener supply sector remains highly fragmented and there continues to be ample scope for consolidation by acquisition both in the UK and internationally. Many of the larger industry players are therefore expected to remain on the acquisition trail.

DID YOU KNOW?

This report is part of a series of reports, produced to provide you with a more holistic view of this market

Industrial Fasteners - UK - December 2015

Report Price: £995.00 | \$1611.35 | €1263.96

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

Table of Contents

Executive Summary

The market

Sales of industrial fasteners projected to fall by 1% in value terms in 2015, although volume demand from key end-use industries is believed to have held up well

Figure 1: The UK market for industrial fasteners, 2011-15

UK market for industrial fasteners set for continued growth through to 2020

Figure 2: Forecast UK market for industrial fasteners, 2016-20

Industrial fastener market to benefit from increased investment in UK automotive and aerospace industries

Increased construction and civil engineering activity to provide a positive impetus for industrial fastener market

Figure 3: Forecast construction output in Great Britain, 2015-19

Market factors

Demand for fasteners boosted by strong growth in UK car production

Figure 4: UK car production, 2008-15

The construction industry is a further major area of demand for industrial fasteners

The UK has the second largest aerospace industry in the world

Developments in aerospace and automotive sectors drive innovation in the fastener sector

Figure 5: UK turnover of aerospace equipment, by sector, 2010-14

Companies

What we think

Key Insights

How are developments in the automotive industry affecting demand for industrial fasteners?

How is the drive towards more fuel-efficient aircraft affecting the fasteners industry? How are fastener manufacturers innovating in response to this trend?

Is the aerospace equipment industry looking to form more collaborative relationships with its supply chain?

Have recent anti-dumping measures for certain Chinese fasteners been effective?
