

Better for You Snacks - US - September 2016

Report Price: £2466.89 | \$3995.00 | €3133.71

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

"Strong growth in BFY snacks comes from an increase in availability of products in this relatively young space, at a time when consumer habits favor snacking and eating on-the-go, and a dual interest in healthy living and the pursuit of flavor. While the products covered in the scope of this Report are not universally accepted as healthy, they communicate permissibility."

- Beth Bloom, Senior Food & Drink Analyst

This report looks at the following areas:

- BFY snacks face competition from range of snack options
- Consumers are skeptical of BFY snacks

This Report focuses on processed snacks that are specifically positioned/marketed as BFY. Product categories included in the scope of this Report are:

- Vegetable and fruit chips (including chips that are not made from either potatoes or corn, including apple chips, kale chips, sweet potato chips, carrot chips)
- Puffed snacks (including potato, multigrain, corn, and rice and other puffed snacks)
- Soy crisps and snacks (including snacks made primarily of soy (including soy nuts) and marketed as a "soy snack" rather than a corn, potato, or rice chip/snack that contains soy among other ingredients)
- Other snacks (including items and snack mixes that don't fit into other snack subcategories such as wasabi peas, roasted chickpeas, and veggie sticks, as well as alternative-based chips like hummus chips, lentil chips, and bean chips)
