

Computer Security - UK - January 2017

Report Price: £995.00 | \$1252.11 | €1159.97

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“Computer security continues to be of paramount importance. National defence is increasingly moving to the potential issue of cyber attacks, while commercial companies face the twin challenges of more connected devices (both owned and customers connecting to their systems) and the greater sophistication of cyber crime.”

- Terry Leggett Senior B2B Analyst

This report looks at the following areas:

- What are the growth factors for the computer security market?
- What are the obstacles to growth?
- What trends in computer breaches are evident?
