

## Thermal Insulation - UK - August 2017

Report Price: £995.00 | \$1288.43 | €1182.46

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“The new private owners of the Green Deal Finance Company, which was revived in June 2017, have said they will use the Green Deal to address new legislation-driven demand in the private rented sector.”

– Claudia Preedy - B2B analyst

This report looks at the following areas:

- How has the thermal insulation market performed over the last five years?
- How strongly will the market develop over the next five years?
- How have changes to government initiatives affected activity in the retro-fit sector?
- What are the drivers for market growth?
- How have companies involved in the market fared during the last five years?

Thermal insulation installers are increasingly adopting a multimeasure approach as demand for thermal insulation remains volatile, largely due to the stop-start nature of government funding initiatives. This approach enables them to provide 'whole house solutions', ranging from insulation to heating, plumbing and renewables. Insulation companies with transferrable skills are also branching out from the retrofit market to different new build and commercial sectors.

### DID YOU KNOW?

This report is part of a series of reports, produced to provide you with a more holistic view of this market

# Thermal Insulation - UK - August 2017

Report Price: £995.00 | \$1288.43 | €1182.46

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

## Table of Contents

### Executive Summary

#### The market

Figure 1: The UK market for thermal insulation, by sector, 2012-16

Thermal insulation market expected to demonstrate modest annual growth post-2017, partly driven by demand in new housebuilding sector

Figure 2: Forecast UK market for thermal insulation, 2016-20

#### Market factors

Figure 3: Construction output in Great Britain, 2011-15

Figure 4: Total number of Insulation measures installed under ECO and Green Deal , by region, January 2013 March 2017

#### The Industry

#### What we think

### Key Insights

What are the new Minimum Energy Efficiency Standards in the private rented sector? Will these offer growth potential for thermal insulation measures?

What are the government's future plans for the ECO scheme? What is the likely impact on the thermal insulation demand?

What are the industry proposals for the Clean Growth Plan to help address the significant gap in policy to tackle emissions from buildings?

Exports

## Market Factors

Key Points

Market Factors Overview

Climate Change Act 2008

Building Regulations

Energy supplier obligation initiatives to improve energy efficiency of domestic homes

Figure 11: Summary of major energy efficiency programmes since 2000

EEC/CERT and CESP schemes boosted demand for key insulation measures over last decade

CERT and CESP replaced by ECO in 2013

Green Deal 2013-15

Green Deal Home Improvement Fund temporarily boosts take-up of solid wall insulation in 2015

Green Deal relaunched in June 2017 under new private ownership

Minimum Energy Efficiency Standards for Private Rented Sector

Enhanced Capital Allowance Scheme

Each Home Counts Review sets out new quality and standards framework for all energy efficiency and renewable energy measures

Long-awaited Clean Growth Plan, due to be published in autumn 2017, set to provide a blueprint for the UK's decarbonisation pathway

## Market Size

Key Points

Market Size

Figure 12: UK market for thermal insulation, 2012-16

Figure 13: UK market for thermal insulation, 2012-16

Market Segmentation

Overview

Figure 14: Segmentation of the UK market for thermal insulation, by sector, 2012-16

## Building Thermal Insulation

Key Points

Market Overview

Revisions to building regulations see insulation standards tighten over the last 15 years

Conservative government scraps Zero Carbon Homes Plan to reduce regulation on housebuilders

Government schemes boost retro-fit installations of key insulation measures over the last decade

Frequent policy changes have resulted in a stop-start retro-fit building thermal insulation

Figure 15: UK market for building thermal insulation, 2012-16

Market Segmentation

Cost of thermal insulation could rise following EU ruling on UK reduced tax rates, though Brexit puts this into doubt

Figure 16: UK market for building thermal insulation, by type of insulation, 2012-16

Figure 17: UK market for building thermal insulation, by type of insulation, 2012-16

Cavity Wall Insulation

### Market Segmentation

Figure 104: Forecast segmentation of the UK market for thermal insulation, by sector, 2017-21

ECO 3 (April 2017- September 18) expected to fewer thermal insulation measures installed due to reduced funding, before more steady demand is anticipated under new ECO 4 scheme

Reports by Energy and Climate Change Committee and the Green Building Council urge the government for renewed committee on tackling home energy efficiency

Upcoming 'Clean Growth Plan' presents an opportunity for government to address significant gap in policy to tackle emissions from buildings

New Minimum Energy Efficiency Standards in private rented sector expected to generate demand for key insulation measures ...but government may still introduce changes to MEES that could see many landlords win exemptions

New build sector expected to provide stronger opportunities than retro-fit, but Brexit-induced uncertainty likely to restrict growth

Figure 105: Forecast for UK market for building thermal insulation, by type, 2017-21
