

## Private Healthcare - UK - June 2018

Report Price: £1495.00 | \$2018.70 | €1682.47

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“An efficient and cost-effective private healthcare sector would lead to greater benefits for patients, providers, healthcare professionals and insurers, while also easing pressures on the NHS and wider healthcare industry.”

- Lewis Cone, B2B Analyst

This report looks at the following areas:

- Are private providers gaining patients from the NHS due to increased waiting times at NHS hospitals?
- Can improvements to information regarding treatment help improve the number of patients using private healthcare?
- Can data and technology help hospitals adjust to changing patient needs?

### DID YOU KNOW?

This report is part of a series of reports, produced to provide you with a more holistic view of this market

# Private Healthcare - UK - June 2018

Report Price: £1495.00 | \$2018.70 | €1682.47

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

## Table of Contents

### Executive Summary

#### Market size

Figure 1: UK Expenditure on Private Acute Healthcare, 2013-17, (£ Million)

Figure 2: The UK PMI Market, 2013-2017, by Number of Policyholders and People Covered, (000)

Figure 3: Estimated Weekly Spend on PMI Premiums, by Region, 2015-17, (Average Weekly Spend in £)

#### Market factors

Continued pressures on the NHS provide opportunities, but private providers must proceed with caution when acquiring patients

Slow progress in Brexit talks means uncertainty remains over future impact on healthcare spending and recruitment

Third IPT rise in two years adds barrier to PMI growth

#### Consumer

#### Forecast

3% growth per year expected to 2022

Figure 4: Forecast UK Expenditure on Private Acute Healthcare, 2018-2022, (£ Million at 2017 prices)

Growth will be driven by uptake in corporate PMI but will remain sluggish

Figure 5: UK Market Forecast for Private Medical Insurance Subscription Income, 2018-2022, (£ Million at constant prices)

#### What we think

### Key Insights

Are private providers gaining patients from the NHS due to increased waiting times at NHS hospitals?

Can improvements to information regarding treatment help improve the number of patients using private healthcare?

Can data and technology help hospitals adjust to changing patient needs?
