

# Utility Capital Expenditure - UK - December 2019

Report Price: £1495 | \$1995 | €1800

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

## This report looks at the following areas:

- Capital expenditure in water and sewerage sector
- Capital expenditure in electricity transmission and distribution sector
- Capital expenditure in gas transmission and distribution sector
- Companies and brands

Infrastructure investment will continue to be a key focus across the utility sectors, driven both by the need to replace old assets and new capacity requirements on networks. However, approaches to investment are now shifting across sectors due to changes in the regulatory environment, including increased pressure to reduce costs for consumers while ensuring security of supply. There is a focus on innovation, technology, efficiencies and long-term outcomes in infrastructure management and investment, replacing the short-term outputs and capital expenditure preferred in the past.

“Network operators are facing tougher price controls and performance targets in the upcoming spending periods. They will also be under increased pressure to deliver innovation, reliability and investment at the lowest cost to consumers. These increased cost and efficiency pressures are passed onto the supply chain.”

– Claudia Preedy, B2B Analyst

## Table of Contents

### OVERVIEW

- What you need to know
- Covered in this Report
- Water & Sewerage
- Electricity Transmission
- Electricity Distribution
- Gas Distribution
- Gas Transmission

### EXECUTIVE SUMMARY

- Capital expenditure in water and sewerage sector
- Gross capital expenditure in water and sewerage industry up by 8% in 2018/19

Figure 1: UK capital expenditure on water and sewerage services, 2015/16-2018/19

- English water companies plan to spend a record £50 billion+ in AMP7 (2020-25)
- Capital expenditure in electricity transmission and distribution sector
- Capital investment in distribution networks expected to be lower in current price control

Figure 2: UK gross capital expenditure by electricity distribution network operators, 2013/14-2018/19

- Rise in distributed generation requires more active management of distribution network
- Capital expenditure in gas transmission and distribution sector
- Capital spending picks up as current price control period progresses

Figure 3: Total gas transmission and distribution capital expenditure, 2014/15-2018/19

- Companies and brands
- Utility operators are adopting a more collaborative approach and closer relationships with the supply chain
- What we think

### ISSUES AND INSIGHTS

- AMP7 (2020-25) set to be the toughest price review faced by water and sewerage companies yet
- The facts
- The implications

APAC +61 (0) 2 8284 8100

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

- **Enabling low-carbon energy transition will be a key focus for electricity network operators in the next price control**
- **The facts**
- **The implications**

**WATER AND SEWERAGE SECTOR – WHAT YOU NEED TO KNOW**

- **Gross capital expenditure in water and sewerage industry up by 8% in 2018/19**
- **Move towards long-term alliances and frameworks across industry**
- **English water companies plan to spend a record £50 billion+ in AMP7 (2020-25)**

**WATER AND SEWERAGE INDUSTRY CAPITAL EXPENDITURE**

- **Move towards totex in AMP6 and beyond set to reduce bias towards capital spending**
- **Move towards long-term alliances and frameworks across industry**

• **Total capital expenditure**

Figure 4: UK capital expenditure on water and sewerage services, 2015/16-2018/19

• **Sewerage-related capital expenditure**

Figure 5: Analysis of sewerage-related capital expenditure, by water and sewerage companies in England and Wales, 2015/16-2018/19

Figure 6: Analysis of sewerage capital expenditure in England and Wales by water and sewerage companies, by type, 2015/16-2018/19

• **Water-related capital expenditure**

### WATER AND SEWERAGE FUTURE CAPITAL INVESTMENT

- **Future challenges facing the water and sewerage sector**  
Figure 12: UK population, by region, 2014-36
- **Thames Tideway Tunnel**  
Figure 13: Estimated cost of Thames Tideway Tunnel, 2015/16-2021/22+
- **AMP7 (2020-25) set to be toughest price review yet**
- **English water companies plan to spend a record £50 billion+ in AMP7 (2020-25)**
- **Opening up of non-household retail market in England to provide new opportunities for water and sewerage companies**

### WATER AND SEWERAGE INDUSTRY LEGISLATIVE AND REGULATORY ENVIRONMENT

- Industry regulation
- Legislative environment
- European Water Framework Directive
- Urban Waste Water Treatment Directive
- The Drinking Water Directive
- Revised Bathing Water Directive
- Implications of Brexit on the UK water and sewerage sector
- Transfer of private sewers in England and Wales
- The Flood and Water Management Act 2010
- Water and sewerage retail competition opens up for all business customers in England in April 2017

### ELECTRICITY DISTRIBUTION AND TRANSMISSION – WHAT YOU NEED TO KNOW

- Capital expenditure by DNOs expected to be lower in current price control period
- Rise in distributed generation requires more active management of distribution network
- Change in energy mix is a key driver for investment in transmission network

### ELECTRICITY DISTRIBUTION CAPITAL EXPENDITURE

- Introduction
- RIIO model adopted for current price control period (2015-23)
