Motor Insurance - UK

“Telematics insurance is the most innovative development in the motor insurance industry for years. As a result, the majority of insurers are focusing some resources on developing telematics offerings and trying to find ways to reduce upfront costs of installing the technology, such as mobile application development. However, before this ...

Travel Insurance - UK

“Despite being an essential product for consumers, purchasing travel insurance is a minefield for consumers; with complicated small print and hundreds of different policies to choose from. The industry should use innovations to make cost savings, simplify products and engage better with consumers.”
