Recruitment - UK

“Recruitment plays a critical role in matching skills with the businesses in need of them. The pandemic and ensuing social distancing measures heavily impacted demand for recruitment, as businesses shelved hiring plans in reaction to the severe rise in uncertainty. As the economy has adjusted, vacancies have rebounded rapidly and ...

June 2021

Residential Windows & Doors - UK

“COVID-19 caused a temporary decline in demand in the new build sector, disrupting the buoyant conditions which continue to offer long-term potential. In the home improvement sector, there is proving to be a boost to demand as remote working stimulates demand for workspace. In the direct sell market, the disruption ...

B2B Economic Outlook - UK

“Latest economic data indicates a rebound in the UK economy, bolstered by the easing of COVID-19 restrictions and the rapid vaccine roll-out. Businesses are also becoming more confident with a number of surveys suggesting improved expectations for economic conditions and investment intentions.

Data Centres - UK

“Data centres are at the very heart of the evolving IT landscape. COVID-19 has dramatically impacted traditional working practices and organisations of all sizes have been turning to modern IT solutions to keep their operations running, their teams connected and their costs under control. Additional services and enhanced hybrid cloud ...

Construction - UK

Private Healthcare - UK

“With the COVID-19 pandemic having already led to thousands of cancer screenings and diagnoses being postponed or missed as well as fewer people visiting their GP with symptoms and concerns, it is vital that the private healthcare sector steps up its involvement in these areas. The record high backlog in ...

Commercial Mortgages - UK

“The commercial mortgages market fared better than anticipated over 2020. Government support schemes helped minimise the impact of the pandemic and enacted policy to help combat it, which prevented a cascade of defaults that could have rocked the sector.

Focus is now shifting towards redevelopment as the boom in online ...

Legal Services - UK

“Construction has a reputation for being highly cyclical and changes in activity tend to exaggerate the wider economic changes in the country. With the unprecedented magnitude of the COVID-19-induced recession, the construction sector has been strongly impacted. However, the recovery from the downturn will be very unusual as a result ...

“Technology adoption and innovation will play a key role in ensuring that legal services firms thrive in an ever-changing market landscape.

Corporate clients will continue to squeeze margins while demanding faster turnaround times and greater use of innovation, which puts pressure on legal services firms to embrace ongoing innovation and ...

Occupational Health - UK

“Employees have had to engage with health and wellbeing in a different way during the pandemic and this has increased awareness of the many services that are available from OH providers – remotely, digitally and in-person. Some of these services have been particularly beneficial for employees and are therefore likely ...

Courier & Express Delivery - UK

“The coronavirus crisis drove a meteoric rise in online shopping as a result of lockdown and social-distancing measures that were enacted in response to it. The surge in demand has placed couriers and delivery operators under immense pressure as they look to maintain service quality, and also contribute to solving ...

Waste Management and Recycling - UK

“The COVID-19 outbreak has delayed progress of the government’s waste and recycling reforms, which are seen as a much needed framework to reboot recycling and support the shift towards a more circular economy. While there remains a lack of clarity over the final design of proposed measures it’s important that ...

B2B E-Commerce - UK

“COVID-19 has had a major impact on the e-commerce sector, providing growth for large elements of the B2C market (though difficulties in some areas) and more challenging conditions in the much larger B2B market. While there are questions over whether the pandemic has permanently changed consumer behaviour to boost the ...
