**IT Services - UK**

“COVID-19 accelerated the implementation of digital programs across all sectors, and so boosted the already rapid development of IT services. While businesses initially concentrated on remaining operative, there are long-term implications, including negative effects on some industry sectors, but also new hybrid working practices with all the security implications of ...

**February 2022****Computer Security - UK**

“Computer security increases in importance as digitisation and the number of connected devices grow at unprecedented speeds. COVID-19 served to propel the speed of transition and the market expanded correspondingly. At the start of 2022, heightening tensions between East and West are now causing further cyberattack concerns, while the continued ...
