Sustainability in Foodservice - UK

"The rising cost of living is making it more difficult for consumers to prioritise sustainability, as consumers are more likely to cut back on non-essential spending, such as sustainable food choices, in order to save money. This means that foodservice operators will need to offer incentives to consumers to eat ...

Solar Power - UK

"Sustained strong solar PV deployment is forecast for the coming years, with all main market segments (ground-mount, residential and non-residential roof-top solar PV) in high growth mode. Growth is fuelled by increased interest in self-generation amid high energy prices and the decarbonisation agenda across the public, commercial and residential sectors ...
