B2B Economic Outlook - UK

“The UK economy continues to show signs of slowdown, with GDP reversing slightly as a no-deal Brexit appears increasingly likely. Brexit-related uncertainty continues to hold back investment and confidence, but have so far only materialised as slower growth.

A no-deal Brexit is expected to have a major impact on the ...

Dentistry - UK

“Although growth is forecast to slow over the next five years, the private sector is anticipated to have greater growth opportunities than NHS dentistry since the NHS faces a considerable challenge in providing high quality healthcare amid rapid demographic changes and constrained public spending.”
