Solar Panels - UK

“The outlook for the UK solar panels market is bright, fuelled by the decarbonisation agenda across the public, commercial and residential sectors. Market growth is anticipated to be initially driven by subsidy-free, large-scale, solar deployment and commercial installations. With solar PV set to be included in the next CfD allocation ...

Energy Industry - UK

“With green tariffs becoming more ubiquitous, energy suppliers must do more to differentiate their green credentials. Suppliers should consider offering services and products to help consumers live more sustainably in their homes. This can unlock new opportunities for growth and create competitive advantage.

Suppliers can more actively engage with customers ...
