

# **B2B: Technology** - UK

### <mark>Ju</mark>ne 2019

### **Blockchain - UK**

"Blockchain may originate from spurious uses, and the future of crypto currencies remains debatable (though don't rule it out), but the potential wider commercial opportunities and applications of blockchain are vast and transformative. Moreover, its use is not limited to business but extends to major public sector applications. Some within ...

### Software - UK

"The software market is now increasingly appearing to be economically independent, being driven by technological capability and improvements. The software as a service model, rather than subscription pricing, has classified software as a scalable running cost rather than a capital investment, which has assisted growth when other markets have faltered ...

### **B2B** Economic Outlook - UK

"The government has said that it is committed to a "green" Brexit and to maintaining environmental standards. The government is also expected to remain committed to the EU's renewables generation targets and carbon emission reduction targets. Therefore energy and environmental policy is unlikely to change post-Brexit. That means it will ...

#### **Data Centres - UK**

"Colocation data centres are set to see huge and rapid growth in demand. This will lead to both the development of new facilities and the constant upgrading of existing facilities to accommodate the ever increasing volumes of data being created and analysed."

- Terry Leggett, Senior Analyst
