July 2023

Solar Power - UK

"Sustained strong solar PV deployment is forecast for the coming years, with all main market segments (ground-mount, residential and non-residential roof-top solar PV) in high growth mode. Growth is fuelled by increased interest in self-generation amid high energy prices and the decarbonisation agenda across the public, commercial and residential sectors ...

June 2023

B2B Economic Outlook - UK

“While the UK economy is now expected to narrowly avoid falling into recession in 2023, stubbornly high inflation remains of concern. The inflation rate is expected to slow in the second half of 2023, on the back of falling energy prices and the easing of global supply pressures, but it ...

May 2023

Waste Management and Recycling - UK

“The commitment to a more circular economy, underpinned by the implementation of major waste reforms, will be central to developments in the waste management and recycling market over the coming years.

March 2023

B2B Economic Outlook - UK

“Although the UK avoided recession at the end of 2022, growth is likely to be constrained by persistently high inflation and the cost of living crisis. The recent fall in wholesale gas prices should start to reduce bills by the end of H1 and this will somewhat improve the financial ...

B2B Economic Outlook - UK

© 2024 Mintel Group Ltd. All Rights Reserved. Confidential to Mintel.

"The UK, along with other Western economies, is grappling with a perfect storm caused by rocketing fuel prices following the conflict in Ukraine and the inflationary consequences of the post-COVID boom in demand. The sharp rise in inflation seen in 2022 has stimulated interest rate rises which in turn contribute ...

January 2023

Utility Capital Expenditure - UK

"The utilities sector is set to see continued strong capital spending levels, with significant investment required to futureproof networks and help transition to Net Zero.

Operators are facing increased pressure to deliver investments at the lowest costs, which in light of current macro-economic conditions, presents challenges. The increased cost and ...
