

## January 2022

### B2B Economic Outlook - UK

“2021 has demonstrated a rapid recovery from the record fall in GDP in 2020 – in sharp contrast to the elongated flat recovery following the last recession. However, the huge uncertainties surrounding the outbreak of Omicron now dominate expectations for the economy. While the government clearly remains resistant to another ...

## October 2021

### Mechanical and Electrical Engineering - UK

“The combination of technological advances, Brexit, COVID-19 and the emerging policies surrounding net zero are all having a profound impact on the M&E sector. Accompanying these huge influences is a new government emphasis on infrastructure in an effort to stimulate the economy. The market is set for growth and at ...

## June 2021

### B2B Economic Outlook - UK

“Latest economic data indicates a rebound in the UK economy, bolstered by the easing of COVID-19 restrictions and the rapid vaccine roll-out. Businesses are also becoming more confident with a number of surveys suggesting improved expectations for economic conditions and investment intentions.

## March 2021

### B2B Economic Outlook - UK

“The tentative dates set by the government to reopen the economy over the coming months provide hope that businesses are over the worst that the pandemic has brought them financially. However, it will still take time for things to return to pre-pandemic levels with businesses likely to still need support ...

## February 2021

## Civil Engineering - UK

“Infrastructure investment will have a key role to play in the economic recovery from COVID-19, both by maintaining jobs in the short term, and creating the conditions for long-term sustainable growth.

The government has recently brought forward capital investment in infrastructure, decarbonisation and maintenance projects and committed £27 billion to ...
