Shampoo, Conditioner and Hairstyling Products - US

"The shampoo, conditioner, and hairstyling products market continues to experience slow, yet steady growth, benefiting from strong shampoo and conditioner sales. However, damage concerns have some consumers skipping daily washing in lieu of dry shampoo. Given that conditioner and hairstyling product usage is reliant on frequency of shampooing, less washing ...

Drug Store Retailing - US

"US drug store revenues are expected to be valued at over \$293 billion this year. While the sector has consistently posted revenue gains, the pace of growth is projected to decelerate in light of continued channel-shifting and a consumer preference toward generic drugs versus name brands. Drug stores are focused ...

Beauty Influencers - US

"The power of beauty influencer marketing continues to grow, with women flocking to social media for tutorials and product reviews. Most women follow beauty influencers to learn more about trends, and the use of influencers can shorten the learning curve while minimizing the risk often associated with buying beauty products ...

Soap, Bath and Shower Products - US

"The soap, bath, and shower products market continues to experience slow, yet steady growth, benefiting from strong liquid body wash sales that are compensating for struggles in the bar soap segment. Market growth can also be partially attributed to the inclusion of premium and therapeutic benefits found in liquid body ...

Home Hair Color - US

"The home hair color market continues to struggle. Preferences for natural looks, concerns about damage, and complicated hair color trends—which are typically left to professionals—have placed downward pressure on the market. However, interest among both young and Black consumers is still strong, making them key markets for home hair color ...

Consumers and the Economic Outlook Q1: Defining Financial Success - US

"The US economy continues its slow upward trajectory, even as discussion of tariffs and trade discussions cause the stock market to fluctuate a great deal. US unemployment – already at extremely low levels – decreased further in October of 2018, while labor force participation remained steady. Despite a slight dip ...
