### Oral Health - US

“The pandemic provided the impetus for Americans to establish new healthy at-home rituals in personal care, which fuelled a positive change in oral care routines and products used. Advancing the idea of good oral care as a component of self-care will continue to resonate with a large constituency of consumers ...

### Disposable Baby Products - US

“After seven consecutive years of declining birthrates, 45,000 more babies were born in the US in 2021 vs 2020. Parents who delayed having a baby in the early days of the pandemic finally moved ahead with their plans. In response, category sales grew by 6.2% in 2021 based ...

### Facial Skincare - US

“The facial skincare market has seen steady growth since 2017, which can partially be attributed to the essential nature of the category and stable market penetration. Thanks to an increased focus on hygiene and an intensified need for self-care, the overall category did not suffer major losses in 2020 as ...

### BPC Accessories - US

“As consumers emerge from the pandemic, they are eager to experiment and have fun with their beauty routine, which is good news for the category, particularly makeup accessories. Still, the highly discretionary nature of the category combined with long purchase cycles and concerns about hygiene and environmental impact remain barriers ...

### Shaving and Hair Removal Products - US

“With the exception of 2021, the market has experienced sluggish sales since 2017, which can partially be attributed to the highly saturated landscape and value-driven mindset of category shoppers. Although the US is somewhat entering the recovery phase of the COVID-19, most consumers are still taking a relaxed approach to ...

### Feminine Hygiene and Sanitary Protection Products - US

“Positive category growth trends have been influenced by a more dynamic competitive landscape and increased usage of feminine hygiene products. Motivations have moved beyond strictly functional as consumers look for feminine care solutions that support their overall health and values. Looking forward, expanding usage occasions beyond menstruation and supporting women’s ...

### Managing Common Illness - US

“The COVID-19 pandemic changed the way that consumers approach managing common illness. While consumers still rely on traditional OTC cough, cold, and flu remedies to treat symptoms of common illness, they have also begun to look for immune-boosting ingredients in an effort to prevent future illness. As consumers return to ...

### Shampoo, Conditioner and Hairstyling Products - US

“The shampoo, conditioner and hairstyling products market has shown slow yet steady growth since 2017, which can partially be attributed to the essential nature of the category and stable market penetration. Although the disruptions brought on by the pandemic didn’t lead to a massive decline across the total market, COVID-19 ...
