### Home Shopping - Europe

Home shopping is changing. The days when it was dominated by 1,000 page catalogues are long gone and many of those operators have disappeared, some have failed, others have been absorbed. Now online is the dominant channel for home shopping and successful retailers are integrating their online and offline ...

## June 2012

### Electrical Goods Retailing - Europe

In euro-denominated terms, consumer spending on electrical goods across the countries covered by this

### Electrical Goods Retailing - Spain

Spain has been one of the weaker economies in Europe since the global financial crisis in 2008. While four consecutive quarters of economic growth have been recorded since the final period of 2010, the last quarter

report (excluding Switzerland) fell by an estimated 0.3% in aggregate in 2011.

of 2011 slipped back into negative territory as world trade slowed and the impact ...

## Electrical Goods Retailing - Italy

Putting aside Italy's current financial predicament, the country has fundamental problems in terms of productivity and competitiveness, dragged down by small family companies, entrenched interests and closed-shop professions. The business landscape is dominated by small businesses, which have remained in family ownership and failed to expand, and this has resulted ...

## Electrical Goods Retailing - Germany

Germany has seen the strongest economic recovery in Western Europe, with 3.0% real-terms growth in 2011. Th

## Electrical Goods Retailing - France

Eurostat estimates France saw real-terms GDP growth of 1.7% in 2011, although this is expected to slow considerably, to 0.4% in 2012. Previous French government forecasts had been around 1.75% for 2012, indicating the impact of the eurozone crisis.
