B2B Economic Outlook - UK

“2021 has demonstrated a rapid recovery from the record fall in GDP in 2020 – in sharp contrast to the elongated flat recovery following the last recession. However, the huge uncertainties surrounding the outbreak of Omicron now dominate expectations for the economy. While the government clearly remains resistant to another ...

Medical Equipment - UK

“As new technologies and data analytics capabilities create opportunities for companies in the surgical, diagnostic and healthcare monitoring sectors, these companies must work with partners that bring knowledge and capabilities beyond the traditional medical equipment and supplies market.”

– **Lewis Cone, Senior B2B Analyst**
