Solar Panels - UK

“Future growth in a subsidy-free solar PV market will largely be driven by the continued fall in installation costs and the increased availability of affordable and efficient solar-plus storage systems. For solar PV to become attractive without subsidies, there is also a need to unlock deployment on buildings in the ...

Public Expenditure - UK

“A year on from the Brexit referendum, the primary determinate of public expenditure in the period beyond exit negotiations remains the speculative impact that renegotiated trade deals will have on national income. This uncertainty was compounded by the 2017 general election, which revealed growing weariness from the public around ongoing ...

Energy Industry - UK

“The recent rise in switches reflects the growing number of new suppliers entering the market, increased price competition, a quicker and simpler switching process, as well as increased public awareness about the potential savings offered by switching suppliers. However, despite the uptick in switching rates, around two-thirds of consumers are ...
