

**August 2023****Fashion Technology & Innovation  
- UK**

“As the cost-of-living crisis impacts growth opportunities for the fashion sector, more retailers and brands are looking at ways to optimise their businesses by investing in the latest online and in-store technology to improve the shopping experience, from digitalising returns, RFID-powered information tables, to online fit solutions. AI will become ...

**Underwear - UK**

“A resurgence in consumer spending has benefitted the underwear market, as consumers look to treat themselves to new styles. Consumers seek to bring fun to their underwear shopping, and look for better representation and inclusivity from brands. Growth in the sector is set to be driven by the continuation of ...
