B2B Economic Outlook - UK

“Latest economic data indicates a rebound in the UK economy, bolstered by the easing of COVID-19 restrictions and the rapid vaccine roll-out. Businesses are also becoming more confident with a number of surveys suggesting improved expectations for economic conditions and investment intentions.

Commercial Mortgages - UK

“The commercial mortgages market fared better than anticipated over 2020. Government support schemes helped minimise the impact of the pandemic and enacted policy to help combat it, which prevented a cascade of defaults that could have rocked the sector.
