#### **Motorcycles - UK**

"The motorcycle and scooter market faces a number of challenges as the sector recovers from the recent effects of recession. Sales remain depressed and with rising low-cost imports, the existing players could well be in for a difficult period. Focusing on the large percentage of potential owners is vital in ...

#### **Motor Insurance - UK**

### **Automotive - UK**

"Telematics insurance is the most innovative development in the motor insurance industry for years. As a result, the majority of insurers are focusing some resources on developing telematics offerings and trying to find ways to reduce upfront costs of installing the technology, such as mobile application development. However, before this ...
