### Condiments and Seasonings - Canada

“Canadian eating behaviours have shifted due to COVID-19. Many say they are going through seasonings and condiments more quickly since the start of the pandemic. This makes sense with more meals being prepared at home. That said, high levels of future growth of seasonings and condiments being used in the ...

### Grocery Retailing - Canada

“Grocery retailing has arguably already entered its post-pandemic state. It experienced rapid change in the early months – with sales spikes, widespread shortages and concerns about virus transmission – but quickly settled into its new normal. Today, most Canadians are comfortable going to the grocery store and little will change ...

### Plant-based Food & Drink - Canada

“COVID-19 accelerated the adoption of plant-based alternatives. Growth in this area won't stop when the pandemic does. Consumer demand is being met with investments in innovation across a range of categories from both established consumer packaged goods companies and nascent start-ups. As products continue to better mimic the foods and ...

### Dining Out - Canada

“Restaurants have faced unprecedented challenges since March 2020. Not only were they directly impacted by government restrictions, but more time at home for consumers meant less overall demand for foodservice.

The industry is now looking ahead to the future. They

### Ethics in Food & Drink - Canada

“As with other industries, ethics in food and drink matter for nearly all Canadians. Focusing on ethics in one way or another is not a ‘nice to have’ but a ‘need to have’. The onset of COVID-19 has cemented this view. The good news is there is a great deal ...

will need more tactical messaging to encourage diners to visit ...

## July 2021

### Yogurt & Yogurt Drinks - Canada

“Yogurt is well-positioned to meet the needs of consumers during the pandemic as it’s regarded as a healthy snack. That said, the category continues to evolve, particularly as the prominence of non-dairy alternatives grow. Yogurt companies that are open to new ideas will be best positioned in the post-COVID world ...

## April 2021

### The Natural/Organic Shopper - Canada

“Natural and organic foods and drinks continue to grow in popularity. COVID-19 has bolstered the demand for natural and/or organic foods and drinks as health becomes a greater focus for many. In the years to come the natural/organic space will likely continue to expand and become more mainstream ...

### Cannabis in Canada: Food and Drink - Canada

“More than two years after cannabis was federally legalized, the industry is finding its footing in Canada and starting to live up to expectations. Edible and drinkable cannabis will play a significant role in helping this industry take the next step; they can expand usage to more Canadians since they ...

## March 2021

### Consumer Attitudes towards Private Label Food and Drink - Canada

“Store brands have been deeply integrated into Canadians’ grocery baskets for a long time. COVID-19 has only served to deepen their importance. Beyond the pandemic, private label will continue to play an important role in Canada’s grocery landscape, serving as a way to deliver value to customers, a means to ...

## February 2021

### Delivery Services and Meal Kits - Canada

## Food - Canada

“Demand for delivery services and meal kits exploded in 2020. While the pandemic has led to untold human and economic suffering, the problems wrought by the virus accelerated innovation that’s provided solutions. As the pandemic arguably enters the back end with life hopefully returning to a semblance of normal, the ...
