

December 2014

Defence Equipment (Industrial Report) - UK

“The Strategic Defence and Security Review in 2010 has heavily influenced what the sector has been able to achieve over the last four years. With the spending cuts lasting for at least another year, strategies and defence equipment procurement will continue to be chosen with efficiency and ‘best value’ as ...

Aerospace Industry (Industrial Report) - UK

“With the growing involvement of the government, both in terms of policy direction and financial contribution, the UK aerospace industry is preparing itself for the long battle ahead to retain its position as the leading industry in Europe and the second largest globally, behind only the US. The main competition ...

October 2014

Consulting Engineers (Industrial Report) - UK

“The prospects for UK consulting engineers improved during 2013 and the market is set for sustained growth over the next five years. The more buoyant construction sector is expected to boost demand in the UK. Transport infrastructure and the energy sector will provide the strongest growth potential, making up the ...

August 2014

Industrial Fasteners (Industrial Report) - UK

“The UK industrial fastener market was severely affected by the recession, as demand from key end-use sectors like automotive and construction collapsed. However, the market has recovered since 2009, largely driven by increased investment in the UK automotive and aerospace industries. Continued strong demand from these sectors will also underpin ...

July 2014

Public Expenditure (Industrial Report) - UK

“The public sector has long represented a major opportunity for private companies to sell products and services. With effectively no prospect of government spending falling to below 40% of UK GDP in the short term, the market is vast, and the drive for efficient service provision can only intensify with ...

March 2014

Railway Engineering (Industrial Report) - UK

"The anticipated increase in demand from passengers together with growth in the rail freight sector will put additional strain on the UK's rail system over the coming years, with the network already nearing its capacity limits. Thus continued investment in the rail infrastructure will be necessary over the coming years."

February 2014

Mechanical Lifting and Handling Equipment (Industrial Report) - UK

"Trading conditions in the mechanical lifting & handling equipment market have started to improve during 2013 and into 2014, supported by economic growth, increased construction activity and signs of improvements in the manufacturing sector."
