Jewellery & Watches Retailing - UK

"Recovery remains strong within the jewellery and watches market, with bridal jewellery, a strong luxury sector and the return of international tourism driving positive growth. The cost-of-living crisis will continue to put downward pressure on consumer spending, negatively affecting mid-market and independent brands. Retailers must maintain a strong online presence ...

Fashion & Sustainability - UK

"While the cost of living crisis will lead some consumers to prioritise price over the environment, we have already seen a big shift in the way people consume fashion as a result of COVID-19 and lifestyle changes. As consumers look to navigate inflationary pressures, they are looking to save money ...
