Convenience Retailing - Ireland

After aggressive expansion in the early 2000s, the convenience retailing sector now faces a number of challenges. The recession has encouraged consumers to travel further and look harder for value for money, and supermarkets and discounters are keen to meet this demand.

How Have Irish Companies and Consumers Embraced Online Shopping - Ireland

This report analyses the dynamics of the online retailing sector in Ireland, and assesses the factors driving and limiting growth in online shopping by Irish consumers.
