Mortgages - Ireland

“After years of decline and contraction, growth and momentum has returned to the Irish property market, which has, in turn, fostered confidence and positivity among Irish consumers. Once again, purchasing residential property in Ireland looks to be attractive and consumers view a mortgage loan as an opportunity rather than a ...

Savings - Ireland

“Despite consumers still feeling the squeeze on their finances, there is still some appetite for precautionary saving: the two most common reasons for saving are for security and to cover unexpected events.”

– **Brian O'Connor, Production Manager**
