

The Ethical Traveller - UK - February 2021

Report Price: £1995.00 | \$2693.85 | €2245.17

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“Consumers’ desire to avoid crowds provides operators and destinations with an opportunity to promote activities with a low environmental impact such as hikes in wide open spaces and cycle tours with stops at local farms.”

– **Marloes de Vries, Associate Director – Travel, 26 February 2021**

This report looks at the following areas:

- **The impact of COVID-19 on the UK holiday market and travellers’ priorities.**
- **Holidaying intentions and likely behavioural changes in 2021.**
- **Purchase drivers when choosing a travel company and the relative importance of brands’ environmental policies.**
- **Environmental and ethical factors that consumers would like to see travel brands prioritise.**
- **Opportunities to encourage ethical travel.**

The pandemic has raised awareness of the risks associated with over-crowding in popular tourist destinations. Tackling over-crowding is now seen as the third-highest ethical priority for travel companies to address, behind reducing carbon emissions and recycling waste. Consumers’ desire to avoid crowds provides operators and destinations with an opportunity to promote activities with a low environmental impact such as hikes in wide open spaces with stops at local farms.

Both widespread media coverage of drops in pollution levels and consumers noticing changes such as cleaner air have resulted in increased awareness of the impact of travel on the environment. Whilst some consumers plan to take fewer holidays for the sake of the environment, financial concerns play a much bigger role. When the economy fully recovers, the growth of the holiday market is likely to accelerate.

When demand for overseas travel bounces back and the impact of travel on the environment starts to be witnessed again, activist groups and the media will likely jump on this topic. Travel brands will have to ensure growth remains accepted by the government and consumers over the longer term, by limiting carbon emissions.

Though only a small share of UK travellers prioritise the environment in the holiday planning and booking process, the majority are open to taking steps to minimise their impact when on holiday. Learning about the local culture and reconnecting with nature on holiday have the widest appeal across ethical travel segments.

Overview

Key issues covered in this Report
 COVID-19: Market context
 Economic and other assumptions
 Products covered in this Report

Executive Summary

Impact of COVID-19 on the UK travel market

Figure 1: Short-, medium- and long-term impact of COVID-19 on the UK travel market, 26 February 2021

The market

Strong correlation between financial situation and holidaying behaviour

Value of holiday market will recover but environmental concerns will see conflicted feelings intensify

UK opens consultation on the implementation of CORSIA

Companies and brands

The shift from carbon-neutral to climate-positivity and taking a longer-term approach

Lonely Planet partners with Withlocals to expand carbon-neutral tours

New Zealand inspires travellers to stop taking photos under the social influence

The consumer

Brits do not intend to stop taking holidays in the coming years

Figure 2: Destinations visited for a holiday vs intentions to visit, November 2020

Holidaymakers intend to take fewer breaks once the outbreak is over

One in four of those planning to take fewer holidays intend to do so because of environmental concerns

Figure 3: Reasons for intending to take fewer holidays, November 2020

Travel market will remain highly price-driven

Figure 4: Main reasons for choosing travel company, November 2020

Decarbonisation and recycling still seen as the biggest ethical travel priorities

Figure 5: Ethical travel priorities, November 2020

The majority have a good understanding of what carbon-neutral means

Majority of travellers open to minimising impact on the environment

Figure 6: Attitudes towards ethical travel, November 2020

The greatest opportunities lie in connecting travellers with local culture and nature

Figure 7: Ethical travel opportunities, November 2020

Ethical traveller segments

Issues and Insights

COVID-19 will boost longer stays...

...and visits to less crowded places

Ethical travel essential to protect future growth of the travel industry

The Ethical Traveller - UK - February 2021

Report Price: £1995.00 | \$2693.85 | €2245.17

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

The Market – Key Takeaways

- Travel bans have raised awareness of the impact on the environment
- Few Brits are planning to cut back on travel because of environmental concerns
- Accelerated growth once the economy has recovered will put pressure on travel companies to take action
- UK opens consultation on the implementation of CORSIA

Market Background

- Staycations will be in high demand once restrictions get lifted
 - Figure 8: Short-, medium- and long-term impact of COVID-19 on the UK travel market, 26 February 2021
- COVID-19 hits after holiday market reaches record heights
 - Figure 9: Volume and value* of domestic holidays taken by British residents, 2015-20
 - Figure 10: Volume and value* of overseas holidays taken by UK residents, 2015-25 **
- Staycation boom expected once measures are relaxed
- Value of holiday market will recover but environmental concerns will see conflicted feelings intensify
- Learnings from the last recession
- Financial constraints led to a staycation boom
- Environmental concerns took a temporary backseat due to financial concerns
- Share of long-haul travel increased as affluent travellers' finances were hit less hard

Market Drivers

- UK opens consultation on the implementation of CORSIA
- Despite lobbying, APD is set to increase for long-haul flights
- Surroundings; one of the seven key drivers for consumer behaviour
 - Figure 11: Key factors driving consumer behaviour around Surroundings, July 2020
- Younger consumers expected to become even more price-driven
 - Figure 12: Changes in financial situation, November 2019-January 2021
- Accelerated growth once the economy has recovered will put pressure on travel companies to take action

Companies and Brands – Key Takeaways

- TripAdvisor, British Airways and Premier Inn seen as relatively ethical
- Reducing carbon emissions: from carbon-neutral to climate-positivity and low-carbon growth
- Inspiring tourists to go off the beaten track
- Connecting travellers with local culture and nature

Brand Research

- TripAdvisor, British Airways and Premier Inn seen as relatively ethical
 - Figure 13: Ethical image of travel brands covered in Mintel's brand research, Jun 2019-Nov 2020

Launch Activity and Innovation

- Reducing carbon emissions
- Intrepid takes longer-term approach by aligning targets with limiting global warming to 1.5°C
- easyJet and United Airlines help to accelerate the development of electric aircraft

The Ethical Traveller - UK - February 2021

Report Price: £1995.00 | \$2693.85 | €2245.17

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

Tackling food waste

Emirates to use AI to reduce food waste by 35%

Inspiring tourists to go off the beaten track

New Zealand inspires travellers to stop taking photos under the social influence

Connecting travellers with local culture and nature

Lonely Planet partners with Withlocals to expand carbon-neutral tours

Natural Britain launched to display ethical travel experiences

The Consumer – Key Takeaways

Brits do not intend to stop taking holidays in the coming years

Decarbonisation and recycling still seen as the biggest ethical travel priorities

Majority of travellers open to minimising impact on the environment

Ethical traveller segments

Impact of COVID-19 on Consumer Behaviour

Travel bans have raised awareness of the impact on the environment...

...but pent-up demand for travel remains strong

Figure 14: Most desired activities once the current social distancing measures are relaxed, 4-12 February 2021

A change in priorities could pose a threat to ethical behaviour

When overseas travel bounces back, environmental concerns will intensify

Holidaying Intentions – Participation

Brits do not intend to stop taking holidays in the coming years

Figure 15: Destinations visited for a holiday vs intentions to visit, November 2020

The desire to travel further afield remains strong

Figure 16: Holidaying intentions, by destination and demographics, November 2020

Lack of knowledge how to minimise impact when travelling overseas

Holidaying Intentions – Frequency

Holidaymakers intend to take fewer breaks once the outbreak is over

Figure 17: Changes to holidaying frequency once the coronavirus outbreak is over, November 2020

The intention to go on holiday less often is mainly driven by financial concerns

One in four of those planning to take fewer holidays intend to do so because of environmental concerns

Figure 18: Reasons for intending to take fewer holidays, November 2020

Majority still keen on taking multiple shorter breaks throughout the year

Figure 19: Preference for short vs long breaks, November 2020

Purchase Drivers when Choosing a Travel Company

Travel market will remain highly price-driven

Figure 20: Main reasons for choosing travel company, November 2020

Ethical behaviour will grow in importance

Companies challenged to help travellers deal with conflict of interests

Figure 21: Importance of a good environmental policy when choosing travel company, by age, November 2020
