

Commercial Property - UK - July 2017

Report Price: £995.00 | \$1288.43 | €1182.46

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

The overall outlook for the commercial property market is cautiously optimistic considering current economic and political uncertainties.”

– **Claudia Preedy - B2B Analyst**

This report looks at the following areas:

- What are the likely implications of Brexit on the UK commercial property market?
- How have key sectors of the commercial property market performed over the last few years?
- Who are the biggest investor types in the key sectors of the commercial property market?
- Which sectors of the market are most attractive to investors?
- Where is the market headed?

In the short term, the market is set to be supported by continued occupier demand in key sectors, especially the industrial sector, and a relatively robust economic performance despite Brexit concerns. The investment market also continues to benefit from the lower value of sterling and low interest rates.
