

Consumers and the Economic Outlook - US - April 2018

Report Price: £1851.44 | \$2500.00 | €2083.61

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

"The US economy weathered the political tumult of 2017 with surprising vigor, as most major economic indicators fared increasingly better throughout the year. The nation's GDP (gross domestic product) has been on the rise for 17 consecutive quarters, and consumer confidence has been marching forward at record levels, while unemployment continues to drop."

- Chris Shadle - Financial Services Analyst
