

## Security Equipment, Access Control and CCTV - UK - April 2018

Report Price: £995.00 | \$1343.55 | €1119.77

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“The security equipment market grew in 2017 as it maintained momentum despite the air of uncertainty surrounding Brexit. Ongoing growth has been underpinned by technological advancements, particularly the integration of equipment, and a surge in cheaper and DIY security systems. A significant rise in core areas of criminality, especially burglary, has also spiked demand.”

– **Marco Amasanti, B2B Analyst**

This report looks at the following areas:

- What have been the drivers of market growth in the past year?
- How has increased criminality impacted the security equipment market over the past year?
- What effect has the UK's decision to leave the EU had on the market?
- What role has technological progress had in the industry in recent years?
- What does the future look like for the security equipment market?

### Definition

This report covers the UK market for security equipment, including the following product areas:

- intruder alarm systems
- centrally monitored alarms
- CCTV
- access control
- integrated systems

The UK security equipment market is diverse. While UK and global markets feature a number of large, well-known brands, there are also a multitude of smaller manufacturers. Separate markets also exist for the rental and sale of security equipment.
