

B2B Economic Outlook - UK - June 2019

Report Price: £995.00 | \$1343.55 | €1119.77

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“The government has said that it is committed to a “green” Brexit and to maintaining environmental standards. Therefore energy and environmental policy is unlikely to change. The biggest threat of Brexit is its economic impact, with affordability issues potentially impacting utilities in an economic downturn by increasing pressure on operators to reduce costs and keep household bills down.”
– Claudia Preedy, B2B Analyst
