

B2B Economic Outlook - UK - Winter 2023

Report Price: £1495 | \$1995 | €1800

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

This report looks at the following areas:

- Economic overview
- Business health
- Special focus: Construction
- What's next?

“The UK, along with other Western economies, is grappling with a perfect storm caused by rocketing fuel prices following the conflict in Ukraine and the inflationary consequences of the post-COVID boom in demand. The sharp rise in inflation seen in 2022 has stimulated interest rate rises which in turn contribute to a slowing economy.”

– Terry Leggett, Principal Analyst
