This report looks at the following areas:

- Economic Overview
- Business Health
- Special Focus: B2B Finance
- What’s Next?

“Although the UK avoided recession at the end of 2022, growth is likely to be constrained by persistently high inflation and the cost of living crisis. The recent fall in wholesale gas prices should start to reduce bills by the end of H1 and this will somewhat improve the financial situation of businesses and consumers alike.”

– Lewis Cone, Associate Director - B2B
