

Domiciliary Care - UK - August 2017

Report Price: £1495.00 | \$1935.88 | €1776.66

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“Much of the business for commercial operations is likely to continue to focus on supply contracts for local authorities. However, many commercial operators are expected to increasingly promote private sector services directly to customers amid increasingly tight margins, and the commercial implications of high exposure to individual authorities subject to political and budgetary decisions.”

– Lewis Cone, B2B Analyst

This report looks at the following areas:

- What are the key determinants driving the domiciliary care industry?
- How has the financial environment affected the industry?
- How have UK governments influenced and shaped the development of home care in each respective country?
- Are there any major regional differences in the UK when it comes to the provision of domiciliary care services?
- What are the key issues the industry needs to address to fully benefit from any favourable market conditions and future trends?
- What does the future hold for the UK's domiciliary care industry?

DID YOU KNOW?

This report is part of a series of reports, produced to provide you with a more holistic view of this market

Domiciliary Care - UK - August 2017

Report Price: £1495.00 | \$1935.88 | €1776.66

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

Table of Contents

Executive Summary

Market size

Figure 1: UK market for domiciliary care, 2012/13-2016/17, (£ million)

Figure 2: Segmentation of the UK market domiciliary care, by type of purchaser, 2012/13-2016/17, (£ million)

Market trends

'Old age support ratio' anticipated to continue to decline despite planned changes to pension age

Figure 3: UK population projections, by age group, 2017-41, (million people)

The gap between costs and fees continue to burden delivery of care services

Turnover rate declines on 2016 as market adapts to higher minimum wage

Figure 4: Annual workforce turnover rates in the independent and voluntary domiciliary care sector, England, 2015-17, by employee position, (%)

Agencies that provide care to largest groups most likely to require improvement

The consumer

Nearly seven in 10 people have not thought about how they would pay for care

Figure 5: Domiciliary care payment plans, June 2017, (% of respondents)

Personal savings and pension income expected to fund long-term care

Figure 6: Domiciliary care payment method, June 2017, (% of respondents)

Nearly a third would prefer a family member or friend to provide them with care over an agency

Help with daily routines and use of complementary tech would be in-demand for inclusion in home care services

Rising costs represent largest concern

Companies

Growing care intensive needs and higher costs affecting M&A activity

Number of providers withdrawing from contracts occurring at higher rate

Lifeways Group is the current market-leader

Figure 7: Independent sector domiciliary providers' market share, 2017, (% of total independent sector market)

Forecast

Weak growth expected in the market to 2021/22

Figure 8: Forecast UK domiciliary care market value, 2017/18-2021/22, (£ million at 2017 prices)

Value of informal care expected to remain significant over the coming years

Figure 9: Forecast UK domiciliary care market segmentation value, by type, 2017/18-2021/22, (£ million at 2017)

What we think

Key Insights

Is growth in informal care sustainable over the long term?

Can innovative ideas help change and improve home care provision to meet rising demand?

What does the future hold for the industry?

Business investment

Figure 15: UK GFCF 2003-15, (£ million)

Imports

Exports

Market Factors

Key points

Increase in the number of elderly people and changes to the pension system will affect how the current system operates

Rising staff costs due to NLW and NMW rate implementation putting service provision under pressure...

...with councils offering little funding relief to providers by offering them low fee rates

Increasing number of home care scandals and complaints regarding service quality show the current strain on provision

Announcements following the start of Brexit negotiations have not eased concerns regarding potential staff shortages

Other factors

NICE guidelines

CQC regulatory fees

Legislation

Community Care Act

Care Standards Act

Regulation and Inspection Bill (Wales)

The Care Act 2014 and Better Care Fund

Market oversight

Care Certificate

Pensions Act

The Carers' Strategy
