

Plumbing - UK - September 2017

Report Price: £995.00 | \$1288.43 | €1182.46

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“Demand for plumbing products has been buoyed by the en-suite trend, high house price inflation encouraging home improvement activity, and relatively strong new construction activity. Kitchens and bathrooms are seen as lifestyle statements and are very important to consumers and property vendors.”

– Terry Leggett, Senior Analyst

This report looks at the following areas:

- How will the market develop over the next five years?
- What will be the market drivers?
- Which regions hold the best prospects?
- Which product sectors have the best prospects?
- Will Brexit have a major effect on the market?

This report covers the UK market and industry for plumbing products, comprising domestic central heating products, commercial heating products, water heating products, bathroom and sanitaryware products, tubes, pipes and fittings, and kitchen products.
