"Millennial women show various levels of engagement, spending a consistent amount of time on their beauty routines and shopping for products. Older Millennials over index for interest in clean beauty products, while Younger Millennials follow a similar pattern compared to Gen Zs. It is important for brands to consider the wide age range of this generation, as they approach the category differently."

- Shannon Romanowski, Director of Research

This report looks at the following areas:

- The Millennial generation is large
- Millennial beauty routines are varied
- Millennials are not as interested in natural ingredients as Gen Zs
