

Laundry and Fabric Care - China - July 2019

Report Price: £3302.97 | \$4460.00 | €3717.16

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

“After years of development in China, capsules are still niche with further education needed, but more and more manufacturers are making efforts in capsules to stimulate the saturated market. Better performance and multiple functions should be prioritised for capsules for certain, while attractive packaging resonates with women well.”

Vicky Zhou, Research Analyst

This report looks at the following areas:

- **The future of laundry capsules in China**
- **Focus on underwear/pants washing demand**
- **Treat clothes as people's skin**

The laundry and fabric care market maintained stable growth in 2019 and Mintel forecasts the market to grow at a value CAGR (Compound Annual Growth Rate) of 4.2% over 2019-24. Potential in capsules/pods and other specific product innovations such as intimate washing products are contributing to the market growth.

Traditional laundry and fabric care products still have higher usage. After several years' development in China, capsules have gained penetration of around one third. Most consumers are motivated by the better performance of capsules to use capsules/pods, while the lack of sufficient cultivation has discouraged further adoption. With more detailed product segmentation, specialised laundry products for underwear/pants also show wide acceptance.

Laundry and Fabric Care - China - July 2019

Report Price: £3302.97 | \$4460.00 | €3717.16

The above prices are correct at the time of publication, but are subject to change due to currency fluctuations.

The penetration of soap bar surpasses powder among females

Figure 42: Product used in the last six months, by gender, April 2019

Capsules and laundry products for underwear are more adopted by women

Income is a more influential factor than city tier

Figure 43: Gap of product used in the last six months, by monthly household income and city tier, April 2019

Urbanites in high tier cities show stronger adoption of germicide liquid

Reasons for Using Capsules/Pods

Results and functions rather than convenience are main drivers

Figure 44: Reasons for using capsule/pod, April 2019

Men pay more attention to the environment while attractive packaging appeals to women more

Figure 45: Reasons for using capsule/pod, by gender, April 2019

Tier one cities' urbanites value high level of convenience over multiple functions

Figure 46: Reasons for using capsule/pod, by city tier, April 2019

Figure 47: Lonkey Elegant Freesia Scented Laundry Capsule, China, 2018

Reasons for Not Using Capsules/Pods

Unfamiliarity, not price, is the top barrier

Figure 48: Reasons for not using capsule/pod, April 2019

Indifference is a more serious barrier for men

Figure 49: Reasons for not using capsule/pod, by gender, April 2019

Income and city tier not particularly influential

Figure 50: Reasons for not using capsule/pod, by monthly household income and city tier, April 2019

Interested Product Functions

Basic functions still dominate

Figure 51: Interested product functions, April 2019

Top three functions can reach 85% of consumers

Figure 52: TURF analysis of interested product functions, April 2019

Men worry about mould while women want colour and fibre protection more

Figure 53: Interested product functions, by gender, April 2019

Affluent demographic's interest in softening benefit differentiates from low earners most

Figure 54: Interested product functions, by monthly household income and city tier, April 2019

Underwear Washing Behaviour and Attitudes

Majority of consumers wash underwear/pants separately

Figure 55: Underwear washing behaviour and attitudes, April 2019

Men don't fall too far behind in underwear washing

Figure 56: Underwear washing behaviour and attitudes, by gender, April 2019

Affluent consumers show higher hygiene requirements for underwear/pants

Figure 57: Underwear wash behaviour and attitudes, by monthly household income, April 2019

Consumers in lower tier cities more interested in labour-saving devices
